

Bobcats, Bears, Fisher, Coyote, Moose, Otters and More!

Presented by: Susan C. Morse of Keeping Track®

Organizer and Host: Middlebury Area Land Trust (MALT)

Please join us for MALT's Annual Meeting

Part of this meeting will be a fun and fact-filled slide show, illustrated with stunning original photography by naturalist and Keeping Track's director, Susan Morse. Susan's presentation will focus on the species served by the 103 acre parcel acquired by MALT in Weybridge, VT. The species she will especially address will be bobcat, black bear, fisher, coyote, moose, otter plus other species. Susan will be emphasizing how this conservation project can benefit these species, and the importance of habitat connectivity. The lecture will not only discuss this property but will also address the importance of conserving wildlife habitat in all areas. Be prepared to hear some of Susan's wonderful animal calls, and even join in!

Throughout the evening enjoy local and homemade snacks.

DATE: Wednesday, October 29, 2014

LOCATION:

Weybridge Congregational Church meeting room
2970 Weybridge Road
Weybridge, Vermont 05753
